Therefore, we at Digi-Tall Media and Entry Way Publishing will complete a structured contract for you if one of the three packages listed below is not sufficient. Our aim is to be able to help authors sell as many of their books as possible—whether they be printed or in E-Book format. The staff's competency comes from being in the 'book business' well over twenty years now. Our skills and services revolve around the following with regard to both printed books and E-Books: full scale or light editing, formatting, PDF locking to prevent re-selling of your product, proofreading, book design, cover design, pre-market approaches, publishing, marketing, printing and distribution, including all social media outlets. Retail areas to sell E-Books from grow daily—we will find them.
